FOR IMMEDIATE RELEASE:

CHP TO STEP UP ENFORCEMENT ON SR 44 IN REDDING

REDDING — The California Department of Transportation (Caltrans) in cooperation with the California Highway Patrol, will increase enforcement on State Route (SR) 44 in Redding through the Dana to Downtown project construction zone near Turtle Bay. Speed limits in the area have been reduced to 45 mph in an effort to increase safety for motorists and workers.

Visibility of highway striping and lane delineation will be enhanced by a re-surfacing project which will begin next week. Paving is scheduled for Tuesday and Wednesday with completion of striping by the end of the week.

In addressing nighttime noise levels, Caltrans will allow construction activities to begin up to two hours earlier in the evening, reducing the amount of noise during the late night hours. Noise levels will be monitored to ensure they are within the restricted level. Residents will still experience some noise at night throughout the duration of the project, but the department is working to reduce the levels in every way possible.

The Dana to Downtown Project is on State Route 44 between Interstate 5 and downtown Redding. Once complete the project will relieve congestion in the greater Redding area, improve highway safety, supplement the Redding bike trail system and provide an enhanced gateway into downtown Redding. Project highlights include:

- Access ramp from Dana Drive to westbound SR 44 will give motorists direct westbound access to downtown from the Hilltop/Dana Drive area.
- Replacement of the Sacramento River Bridge with a larger, six-lane facility.
- Construction of a new Bike/Pedestrian path from the Hilltop/Dana Drive intersection to Turtle Bay.
- Replace the Auditorium Drive interchange with a wider, four-lane over crossing.
- Third lane eastbound between East Street and Park Marina Drive off-ramp.
- Third lane in each direction between Auditorium Drive ramps and I-5 ramps.
- Enhanced landscaping, lighting and aesthetics.

For more information contact the Public Information Office at 530-225-3260.

###

The Dana to Downtown Project emerged from a 1997 study performed by Caltrans and sponsored by the Shasta County Regional Transportation Planning Agency and has consistently been rated by the RTPA as the highest priority transportation project in the Redding area and Shasta County. However, due to dwindling transportation revenues, it has taken more than 10 years to accumulate enough funding to complete the project. A big boost was provided by the voters in November 2006 with passage of Proposition 1B which finally put the project within fiscal reach. Fifty-four percent of the project is funded from State transportation revenues approved by the RTPA while the remaining 46 percent comes from State transportation revenues approved by Caltrans. The RTPA governing board consists of the three members of the Shasta County Board of Supervisors and four City Council members representing Redding, Anderson and the City of Shasta Lake.
